

Silicone, Rubber and Varied Extruders

Main characteristics

- **Silicone Extruders** diameters 20, 25 and 30 mm
- **Rubber Extruders** diameters 20, 30, 40 and 60 mm.
- **Independant Motorised force feeding** on extruders 40 and 60
- Motor power defined according to material
- **Special frame** on demand
- Great choice of options **options** (pump, electrical components, driving...)

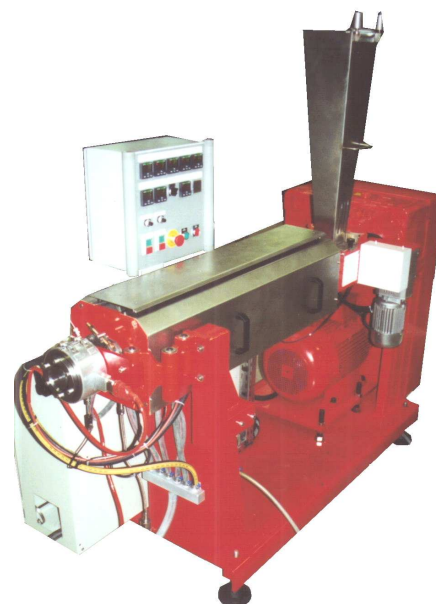

Laboratory Rubber extruder with melt pump pompe diameter 20 mm

Silicone Extruders diameters 25 & 30 mm

*Pharmaceutical Strip Extruder
diameter 40 mm*

*Rubber Extruders
Diameters 40 & 60 mm*
